Product Fact Sheet

Keyspan Express Remote

KEYSPAN

New!

Infrared Remote Control for Your Mac or PC
This versatile remote control can be used in two ways:

When connected to the USB port on AirPort Express, the Express Remote provides a convenient way to locally control music being streamed from iTunes on a remote Mac or PC.

When connected directly to the USB port on a Mac or PC, the Express Remote allows you to control audio and video media players on your computer in the same convenient way that you now control a TV or VCR.

Features
- Receiver plugs into the USB port on AirPort Express, or into the USB port on a Mac or PC
- Sleek 17 button infrared remote transmits signals up to 40 feet
- Includes key maps for iTunes, Windows Media Player, MusicMatch, PowerPoint and other popular multi-media programs
- Simple control panel allows you to program the remote for use with additional applications

Works with AirPort Express

Requirements
- AirPort Express: Requires iTunes 4.7; AirPort Express firmware 6.1; Mac OS X (10.3) or Windows 2000/XP
- Windows: An available USB port; Windows 98/98SE/Me/2000/XP.
- Mac: An available USB port; Mac OS 8.6 (or later); Mac OS X

Availability
